CORNERSTONE

**SURETY
BONDING
PROGRAM**

Bonding with Benefits...

Bonding with Economic Cornerstone will make your company stronger.

Part of our bonding program includes access to our world-class apprenticeship training program. Visit www.ojcc.org for more info.

We Help MWBEs Get Bonding

MWBEs are often told that they don't qualify for bonding and therefore can't get the job. Sounds familiar, right?

For those MWBEs that qualify for the Economic Cornerstone program, however, this excuse no longer pertains. Economic Cornerstone will help you secure bonding, but under one condition – that you succeed. And we will make sure you do.

But what does success look like?

- Skilled workers that are the best in the industry
- A safe work environment
- The proper insurance coverages
- Sound fiscal management

And Economic Cornerstone will ensure you succeed in all these areas because by securing your bond, we assume the risk with you. Your success is our success and when you succeed, you get bigger, more profitable jobs in the future.

How do we help you?

1. We operate a world-class apprenticeship training facility in NYC that ensures your workers can compete with the best in the business. This is at no cost to you!*
2. We operate the city's premier worker training safety program.
3. We partner with an insurance carrier dedicated to the success of the MWBE community and provides market competitive rates.
4. We can assist with payroll and project management.

The end result is to help your company be stronger, more profitable and independent. Our end goal is that you get the tools to compete with large majority-owned firm on your own.

Let's talk bonding. Visit www.economiccornerstone.com.

* Our apprenticeship training program is offered at no cost to those MWBEs who secure their workers' compensation, health and disability through our program. The program covers all the major skilled trades including plumbing, carpentry, steam fitting, electrician, and masonry to name a few
